About this scoring guide

EdReports provides a [Science of Reading Snapshot](#) for each of our [K–5 English language arts \(ELA\) reports](#). The scores shown in each Snapshot are aggregated from different indicators across [EdReports’ ELA review tools](#). The total points available for each science of reading component depends on 1) [the format of the materials](#) and 2) the version of our review tools used for the review. The tables below show the indicators that comprise the scores for each combination of materials format and review tool version.

Both Core: Comprehensive and Core: No Foundational Skills materials reviewed between 2016–2020 use our [v1.0 review tools](#); those reviewed from 2021–2024 use our v1.5 review tools; and materials reviewed in 2025 onward use the v2.0 family of review tools. Foundational Skills Supplements reviewed between 2019–2023 use our v1.0 review tools; those reviewed from 2024 onward use our v2.0 review tools. The relevant review tools are linked in each table.

Materials format - Core: Comprehensive
Report release years - 2025–present

	Grade:	K	1	2	3	4	5	6	7	8
	Review Tool version:	K-2, v1.5			3-5, v1.5					
	Indicator	Available points								
Phonemic Awareness (K-1 only)	1c	4	4	Not Applicable						
	1d	4	4							
	1e	4	4							
	1f	4	4							
	Max available points:	16	16							
Phonics	1g	4	4	4	4	4	4	Not applicable		
	1h	4	4	4	4	4	4
