

Teaching is Awesome

Teaching is simply awesome. Few things beat transferring the most valuable and interesting parts of what we already know to the curious minds of the next generation. At Snappet, we envision a world where all primary school educators are continuously empowered, inspired, and delighted in their mission to do exactly that. We believe that by addressing the unique challenges faced by elementary school teachers and students and amplifying the aspects they cherish, we can help uplift education, creating more vibrant classrooms where teachers and students alike can reach their full potential and contribute to a brighter future for all.

Mission

Snappet's mission is to empower, inspire and delight elementary school educators and students to bring the best of themselves to class. We do this by addressing the unique challenges of educators and learners and amplifying the joys of teaching and learning. We are dedicated to eliminating obstacles such as lack of resources, excessive workload, classroom management issues, limited autonomy, and insufficient compensation, while enhancing the positive aspects of teaching, including working with children, celebrating student progress, fostering creativity, encouraging collaboration, and making a difference.

Innovation in Math Curriculum

To achieve this, we offer the next generation of comprehensive, standards-aligned core curricula that continuously address and adapt to the specific needs of every teacher, class, student, and school. Our curricula come equipped with all the resources and tools a teacher needs to inspire the next generation of learners and facilitate collaborating and cooperating with other educators. Recognizing the crucial role of educators in shaping the future, we are committed to developing cutting-edge solutions that reinforce their expertise, passion, and dedication. Through continuous collaboration with educators, we strive to create comprehensive, dynamic, engaging, and inclusive learning environments that foster growth, nurture curiosity, and elevate the educational experience for every student – one classroom at a time.
